

Remember! Remember!

October Meeting and Demonstration

All in attendance had a thoroughly entertaining and enlightening demonstration by the Club's almost domesticated American member, Jubal Prevatte.

Jubal shared his tips, techniques, motivations, bug bears and betes noires (!) with humour and honesty and was thanked by sustained applause in recognition for a fantastic demonstration of thin walled wet wood turning, setting the bar for those who follow behind.

Below are a few photos from the evening for those who may have missed it - thanks as ever to Barry Chidlow, our man with a camera. Look out for more from Barry in December's meeting on 18th December!
